

Tractor Driving 13-15 Years Old (Northern Ireland)

At a glance...

Training (with Assessment) Competence with Modules

Duration Notes: The expected duration for the course is three days, however please note this may vary according to factors such as level of experience, modules or attachments selected, or the ratio of instructors to learners.

Delivery Method: Training (with Assessment) Competence with Modules

Introduction

Our three-day course develops expertise and safety for the next generation of tractor users in Northern Ireland

Overview in brief

Rural industry in Northern Ireland has a long and proud tradition of giving young workers the opportunity to learn on the job.

Operating tractors is a classic example of that.

But using agricultural machinery involves an element of danger, and tractors are no exception.

Our course enables younger workers to develop or expand on the skills and knowledge required to operate a tractor safely and competently.

The finer details

Experienced instructors will guide you through three days of training.

Coventry, Warwickshire, CV8 2LG

You'll be able to use the tractor safely and with confidence. The key fundamentals of driving and loading are covered.

You'll work with some of the attachments and hitching systems that make the tractor such a versatile machine.

There are also sessions on accident prevention and important daily checks.

Course sessions:

- Preventing accidents
- Controls
- Daily checks
- Driving
- Mounted implements
- Automatic hitching systems
- Trailed machines
- Field planning.

Who should attend?

Our course is suitable for all younger tractor drivers who are either new or have some experience in driving tractors in the agriculture, amenity, forestry, industrial and horticulture industries.

Please note you will need written consent from a parent or guardian to be eligible for this course.

What will be covered?

By the end of the course, you'll be able to:

- Enter and leave the cab safely
- Understand the purpose and meaning of the instrumentation
- Understand the function of all controls
- Understand the hazards associated with some controls
- Understand reasons for daily checks
- Competently perform checking of the lubrication, cooling system and air intake of the engine
- Perform basic lubrication of the tractor and ensure it is in a safe road-going state
- Start and stop the engine in a safe manner
- Be competent in driving a tractor forwards and in reverse
- Leave the tractor in a safe state
- Attach a mounted implement and manoeuvre in a forward and reverse direction

- Attach a trailed implement and manoeuvre in a forward and reverse direction
- Leave unattached implements in a safe state
- Comply with legal requirements with an emphasis on safe practice.

Other areas of interest

- Tractor Driving.
