Before registering on this qualification you must have achieved the following:

Level 2 Award in Felling and Processing Trees up to 380mm

Introduction

Prove your competence in Emergency Treework with this Lantra qualification.

These qualifications are requirements for Professional Users to operate chainsaws in the UK.

Overview in brief

Emergency Treework is one of the most highly pressured areas of chainsaw use.

Our qualification will help you build on the skills and experience you already possess.

For professional chainsaw operators working in forestry and arboriculture the industry recommendation is that for 'high risk' activities the minimum level of adequacy of training is to a certificate of competence or nationally recognised qualification where assessment is carried out independently of the training. **This qualification meets this requirement'**

The finer details

This course will enable you to prove your expertise in a vital area of forestry and arboricultural work.

It will also provide firm evidence of your ability to meet licence-to-practise standards.

You could be starting a new role. Or you might already be using your chainsaw skills across a range of relevant operations.

Whatever your professional circumstances, our course will boost your confidence and help you meet the current standards of good working practice.

Quality Assurance policies are in place to ensure that all assessments meet the independent assessment requirements for this sector.

Who should attend?

As a suite, Lantra's Forestry and Arboriculture qualifications are suitable for learners aged 16+ who wish to develop knowledge, understanding and skills and require proof of competence within their field of expertise.

What will be covered?

This qualification will assess your abilities in the following areas:

- Ability to promote health and safety and industry good practice.
- Ability to carry out emergency operations.
- Understanding of relevant health and safety legislation and industry good practice.
- Understanding how to carry out emergency operations.
