

Synthetic Sports Surfaces Maintenance

At a glance...

Customised Provision

Duration Notes:	1 day
Recognised by:	Lantra Awards

Introduction

Synthetic surfaces can provide year-round play, increased hours of play, consistent conditions and multi-sport capabilities if maintained correctly.

Overview in brief

This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.

The minimum age to undertake this course is 16.

Sports facilities are under increasing pressure to provide playing surfaces all year round. Natural turf surfaces that traditionally provided the playing surfaces are not able to withstand high usage all year round, especially in the winter months.

This training course is designed to provide a basic knowledge of synthetic sports turf maintenance. The course enables the Groundsman to grasp the basic needs of synthetic sports turf throughout a 12-month period.

Who should attend?
