Prerequisites: Entry for these qualifications is available to any individual who is capable of achieving the required standard. Provider staff should understand the demands of these qualifications and match learners based on their individual capabilities and future progression requirements.

Before registering on this qualification you must have achieved the following:

Level 2 in Chainsaw Maintenance

Introduction

This course will enable you to prove your competence in forestry and/or arboriculture operations and evidence your ability to meet licence to practice standards.

These qualifications are requirements for Professional Users to operate chainsaws in the UK.

Overview in brief

The chainsaw is one of the most useful - and powerful - tools used across any number of industries.

But it is also one of the most dangerous.

Our course will help you build on the skills and experience you already possess.

It will give you the chance to obtain a competency card to open up job opportunities in your chosen sector.

For professional chainsaw operators working in forestry and arboriculture the industry recommendation is that for 'high risk' activities the minimum level of adequacy of training is to a certificate of competence or nationally recognised qualification where assessment is carried out independently of the training. **This qualification meets this requirement'**

The finer details

This course will enable you to prove your expertise in a vital area of forestry and arboricultural work.

It will also provide firm evidence of your ability to meet licence-to-practise standards.

Quality Assurance policies are in place to ensure that all assessments meet the independent assessment requirements for this sector.

You could be starting a new role. Or you might already be using your chainsaw skills across a range of relevant operations.

Whatever your professional circumstances, our course will boost your confidence and help you meet the current standards of good working practice.

To achieve this qualification, you'll need to have completed the mandatory unit:

- Cross-cut timber using a chainsaw.

Worth noting: Our course involves some physical sessions, so it's essential that you have at least a minimum level of fitness.

Who should attend?

If you are over the age of 16 and wish to develop your knowledge, skill, and competence in forestry and arboriculture, then this course is suitable for you.

It's ideal if you are looking for a license to practice as you will receive this highly recognised qualification as proof of your skills.

This qualification will be suitable for you whether you're just entering work or have already established yourself in a role.

In particular, this qualification will be of interest to those working in the following industries:
Arboriculture Forestry.

What will be covered?

This qualification will assess your skills in the following areas:

- Working safely
- cross-cutting timber using a chainsaw
- Knowledge of health and safety legislation and industry good practice.
