

Felling and Processing Trees over 380mm Refresher

At a glance...

Training (with Assessment) Competence with Modules

Duration Notes:	2 days
Delivery Method:	Theory/practical
Prerequisites:	You must have attended a Felling trees over 380mm course before attending this refresher.

Introduction

Keep your skills up to date with our bespoke refresher course.

This course is for those who are already operating in industry and need to complete refresher training as set out in the Chainsaws at Work INDG317 document.

Overview in brief

Felling and processing trees can be dangerous tasks.

That's why it's vital to make sure you have the confidence, knowledge, and skills needed to do it safely.

Our refresher course will keep you up to speed with the latest techniques and safety information as well as demonstrating that you and your employer have completed sufficient training to meet the **Provision and Use of Work Equipment Regulations 1998 (PUWER)**.

It's not for novices as it doesn't offer the wide range of skills needed for inexperienced operators to work safely.

The finer details

Our course offers a balanced mix of theory and practical sessions.

Worth noting: You will need a minimum level of fitness to complete this course.

What will be covered?

By the end of the course, you'll have worked through:

- Safety, health and welfare
- Legislation
- snedding and de-limbing
- take down hung-up trees
- Biosecurity
- Felling.

You'll receive a certificate of attendance upon completion of the course.
