Introduction

The Lantra accredited Train the Trainer programme (also known as Instructor training) has been designed to give experienced Multihog operators the skills and associated knowledge required to deliver the Train the Trainer training programme.

Overview in brief

The Multihog vehicle range accredited Instructor Training programme has been designed to give Lantra accredited Operators the skills and associated knowledge required to train novice/potential Multihog vehicle operators as to the safe operations of the Multihog vehicle & its attachments and makes them aware of the potential risks and hazards associated when operating the Multihog in a working environment.

The finer details

On conclusion of the the trainee's will have gained the knowledge and understanding of how to instruct novice operators to comply with the relevant legislation and official guidance in relation to the Multihog vehicle including:

- Health and Safety at work act (HASAWA)

- PPE in the workplace
- PUWER Regulations / ACOPS
- Train the Trainer Techniques including the following subject areas:
 - Defining role and responsibilities
 - Understand how people learn and behavioral changes
 - Preparation to conduct an effective training session
- Testing Basic Operating skills including:
 - Multihog vehicle instruments
 - Pre-use checks and reporting of defects
 - Safe operation of the Multihog vehicle and emergencies
 - Maneuver in restricted areas
