

Equido Level Three

At a glance...

Modular customised provision

Duration Notes: 1 day

Delivery Method: Online

Introduction

Equido is a detailed and comprehensive training methodology. This system gives the student the unique chance to qualify in an alternative training system based on Natural Horsemanship philosophy.

The finer details

Equido Level Three offers concepts and teaching that can enable the student to fully acquire the knowledge of a professional Yard Manager and Horse Trainer.

It is at this level that the use of energy and Equido training ethos is applied and students may wish to begin to diversify into specific areas of expertise.

For example, some students may prefer to specialize in work from the ground as opposed to ridden techniques.

A huge emphasis is put onto the psychology of the horse and meeting the training requirements whilst satisfying the needs of the horse.

It will be a revelation for some students that you can produce top quality competition horses using totally alternative training methods without compromising on performance and ability.

Again the level is split into modules, this time there are 10 modules which comprises of:

- Equine Psychology
- Foal Handling
- Principles of Riding
- Assessing the Horse
- Health Checks

- Training the Horse
- Training the Horse for Competition
- Trailer Loading
- Field Care
- Stable Construction

What will be covered?

By the end of this course learners will:

- Detailed advanced use of Ki energy and how it relates to the equine.
