Introduction

This programme is designed for those required to carry out the role of project supervisor for the design process (PSDP) in the workplace

Overview in brief

This programme covers the essential information required by a supervisor or manager with responsibilities for health and safety in their place of work.

The finer details

The programme is divided into sessions, with a theoretical assessment and assignment to conclude, both of which must be successfully completed in order to attain the Certificate.

Who should attend?

Any supervisor, project manager or manager required to carry out the role of the PSDP.
