

# Online Camelid Faecal Egg Count (FEC) Course

## At a glance...

### Assessed Customised Provision

Duration Notes: Learners can complete over 5-10 hours

Delivery Method: Online

## Overview in brief

Learn how to perform FECs on your camelid samples. Identify worm eggs, lungworm larvae, fluke, giardia, coccidia and cryptosporidia.

## The finer details

Gain knowledge of the parasites that affect the health and production of camelids. Learn how and when to treat, along with control and prevention management.

This self-paced course covers alpacas and llamas and is delivered by means of video presentations, quizzes and assessments.

## Who should attend?

Farmers, smallholders, SQPs, Vets

## What will be covered?

- Understand the science behind FECs and the different techniques that can be used to assess various parasites
- Gain knowledge of the different parasites that affect camelids
- Collect, prepare and analyse samples
- Calculate the parasite burden of a sample
- Be competent in the use of a microscope and sampling equipment
- Identify parasites found in a sample
- Interpret results of an FEC and understand the appropriate use of anthelmintics
- Understand the methods of prevention and control of parasites
