

IMS - Logistics Officer Role

At a glance...

Assessed Customised Provision

Duration Notes:	3 hours
Delivery Method:	Online
Prerequisites:	Site / Local / National Incident Management Team workshop is desirable and recommended.

Introduction

To provide participants with greater knowledge of the specific role of Logistics Officer in an Incident Management System, with reference to the Forestry Commission Incident Management System, Defra Generic Plant Health Contingency Plan and other approaches, to provide the knowledge to work effectively as part of a Site, Local or National Incident Management Team for incidents or events.

Overview in brief

To provide participants with greater knowledge of the specific role of Logistics Officer in an Incident Management System, with reference to the Forestry Commission Incident Management System, Defra Generic Plant Health Contingency Plan and other approaches, to provide the knowledge to work effectively as part of a Site, Local or National Incident Management Team for incidents or events.

This is for either internal working or external interoperability and/or coordination with other organisations and the emergency services using JESIP.

The delivery method for this course is either E-Learning or Classroom.

The finer details

This course provides knowledge and assessment on:

- Principles of Incident Management
- Logistics Officer
- Structure and Management of an Incident

- Shared Situational Awareness and Decision Making
- Creating a Strategy – Setting Aims and Objectives
- Leadership
- Personnel Resilience
