IMS - Planning Section Role

At a glance...

Assessed Customised Provision

Duration Notes: 3 hours

Delivery Method: Online

Prerequisites: A Site / Local / National Incident Management Team workshop

is desirable and recommended.

Introduction

To provide participants with greater knowledge of the specific role of Planning Section, in an Incident Management System, with reference to the Forestry Commission Incident Management System, Defra Generic Plant Health Contingency Plan and other approaches, to provide the knowledge to work effectively as part of a Site, Local or National Incident Management Team for incidents or events.

Overview in brief

To provide participants with greater knowledge of the specific role of Planning Section, in an Incident Management System, with reference to the Forestry Commission Incident Management System, Defra Generic Plant Health Contingency Plan and other approaches, to provide the knowledge to work effectively as part of a Site, Local or National Incident Management Team for incidents or events.

This is for either internal working or external interoperability and/or coordination with other organisations and the emergency services using JESIP.

The delivery method for this course is either E-Learning or Classroom.

The finer details

The course provides knowledge and assessment on:

- Principles of Incident Management
- Planning Section and processes;
- Setting up an Incident Control Point

Coventry, Warwickshire, CV8 2LG

- Incident Action Plan
- Situation Reports
- Intelligence Cycle
- Accountability Log
- Options, Recommendations and Justification Record
- Decision and Action Log
- Incident Risk Assessment
- Structure and Management of an incident
- Shared Situational Awareness and Decision Making
- Creating a Strategy Setting Aims and Objectives
- Levels of Command and Control
