At a glance...

Qualification

Delivery Method:

Qualification

Prerequisites:

Learners are required to achieve the Lantra Awards Level 2 Award in Dry Stone Walling before registering onto this qualification.

There is an expectation Learners will have practiced, as self study or workplace participation the two feature walls and optional wall to refine their skills prior to assessments taking place.

Introduction

This qualification is nationally recognised, reflects the National Occupational Standards (NOS) for Dry Stone Walling, and is supported by The Dry Stone Walling Association (DSWA).

Overview in brief

Gain a nationally recognised Level 3 Certificate in Dry Stone Walling.

The finer details

This qualification comprises of three mandatory units, and three mandatory/optional units. Learners must achieved all three mandatory units plus one mandatory/optional unit to be awarded the certificate.

Learners will be required to complete two features (non timed) which are then assessed, and a timed assessment of a retaining wall.

Providing the Learner has met the rules of combination, Learners may choose to enhance their qualification with any of the other mandatory/optional units available.

Who should attend?

This qualification develops the ability to build more advanced pieces of work with an emphasis on finish and quality, including the building of more complex special features such as retaining walls, high walls and curves.

What will be covered?

The aim of this qualification is to illustrate the Learners knowledge, skills, and behaviours relating to their:

Mandatory units:

- ability to meet contractual specifications and client needs
- ability to strip and rebuild a retaining dry stone wall
- ability to build a curved dry stone wall.

Mandatory/optional units:

- ability to build a dry stone wall on sloping ground
- ability to build a high dry stone wall
- ability to incorporate an opening into a dry stone wall.
