

Gate Person / Airlock Operator – NHSS12

Dear Training Providers,

We would like to advise you of an important update from the National Highway Sector Scheme (NHSS) Committee.

The Sector Scheme Document (SSD) has been revised to include this new requirement:

Gate Person / Airlock Operator Course

Effective from **1st January 2025**, the Gate Person / Airlock Operator course will be mandatory for all individuals required to operate the gate.

Key Points:

- The role of the Gate Person is a separate role from the 12AB General Operative
- Industry must ensure that they are implementing the requirements of the Sector Scheme

We encourage all Training Providers to begin preparing for this change to ensure a smooth transition and compliance with the latest governing rules.

Thank you for your attention to this important update.

Best Regards,

The Lantra Team
